

# LUKA KRUNIĆ

ELECTRONICS TECHNICIAN

BORN: JULY 13 1990

## PROFILE

I like solving problems, of technical or social kind. I learn fast and take pride in being autodidactic in almost everything i know and life in general. I like people and enjoy being social but i also enjoy focus and flow i find in isolation. As time goes by my passion for learning is becoming my driving force, so i define myself not by what i know but with my ability to learn when new knowledge is required from me.

## SKILLS

### Languages

Serbian (native)  
English  
German

### Programming languages and frameworks

JavaScript
